SUMMARY

Full Stack Developer (MERN) with 5+ years of experience building production web applications with **React, Next.js, Node.js, and TypeScript**. Led frontend architecture for a freelance marketplace, scaled multi-country education platforms to 500+ SEO-optimized pages, and built 40+ full-stack applications used in courses reaching **100k+ students**. Strong in performance optimization, REST APIs, real-time features, and end-to-end delivery.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Zustand, TanStack Query, Redux Toolkit, Chart.js

Backend: Node.js, Express.js, NestJS, REST APIs, WebSockets (Socket.io)

Databases & Cloud: MongoDB, PostgreSQL, Supabase, Firebase, Docker, Vercel, Netlify, Railway

Testing & Tooling: Jest, React Testing Library, Git, GitHub, Vite, Webpack, ESLint, Husky, lint-staged, CI/CD

AI Integration: OpenAI API, Claude API

WORK EXPERIENCE

Hunar.pk

Jun 2026 – Present

Frontend Engineer

Remote

- Developed **15+ responsive pages and 30+ reusable React components** for freelancer onboarding, dashboards, gig management, messaging, payments, and escrow workflows, improving UI consistency and accelerating feature delivery
- Integrated **40+ REST API endpoints**, collaborating with 3+ backend engineers and designers to turn Figma designs into pixel-perfect React components
- Built a scalable frontend architecture with **React 19, Tailwind CSS, TanStack Query v5, Zustand v5, Zod v4**, ESLint 9 (plugin-boundaries), Husky, and lint-staged, improving maintainability and type safety

BoomerangEdu.com

Jul 2025 – Present

Website Manager & Frontend Developer (Part-time)

Remote

- Managed and enhanced BoomerangEdu.com and affiliated education platforms (StudiesInMalaysia.com, StudyPsychotherapy.com) using **Next.js, React, Node.js, Strapi, Supabase, Railway, and Vercel**
- Engineered **60+ statically generated pages**, dynamic university/course directories, CMS-driven content, and multi-country landing pages, improving scalability across platforms
- Optimized performance by reducing assets from **197MB to 42MB** — AVIF/WebP conversion, PurgeCSS, lazy loading, and Core Web Vitals improvements
- Implemented technical SEO across **100+ pages** (Schema.org structured data, canonical tags, sitemaps, crawl fixes), lifting target keywords from Google page 3–4 to **page 1**
- Built secure serverless enquiry and newsletter workflows with Next.js API Routes, Nodemailer, Supabase, and reCAPTCHA, restoring reliable lead generation

Meta Brains

Nov 2021 – Aug 2025

Senior Frontend Engineer & Project Manager

Remote

- Built **40+ full-stack web applications** — eCommerce platforms, AI-driven apps (ChatGPT clones), booking systems, data-scraping tools, and CRM dashboards in React and Next.js — that became the foundation of 40+ published courses used by **100k+ students**
- Promoted from Senior Web Developer to **Project Manager**; led a 5-member cross-functional team and optimized delivery processes, increasing monthly output by **150–200%**

Preply

Programming Instructor (Part-time)

Jul 2021 – Present

Remote

- Mentored students and junior developers in building production-ready **React and Next.js** applications, maintaining a **5-star rating** while helping them complete real-world projects

PROJECTS

Friendiary.com — Social Calendar & Meetup App

React 19, TypeScript, NestJS, MongoDB

- Developed a full-stack Gen-Z social calendar platform: private communities, **real-time chat (WebSockets)**, meetups, RSVPs, photo sharing, premium subscriptions, notifications, and an analytics-powered admin dashboard

RiseArt — Art eCommerce Marketplace

React 19, TypeScript, Node.js, Express, MongoDB

- Built a full-stack art marketplace with artist storefronts, **Stripe & PayPal payments**, inventory management, advanced search, and an admin dashboard

VideoSpark — AI Video Automation Platform

React, OpenAI API

- Integrated **OpenAI APIs** across 10+ React components enabling automated video content generation, owning the complete AI-to-UI integration layer

EDUCATION

University of the Punjab

2017 – 2019

B.Com

Lahore, Pakistan

Govt. Technical Training Institute

2018 – 2019

Certificate in Computer Applications

Faisalabad, Pakistan

Self-taught software development since Feb 2020 — official documentation, open source, and hands-on projects.
